According to Forrester Research's last insight report, France e-commerce market grew by nearly 15% between 2015 and 2016. This growth is expected to continue in the same pace the next coming years with the accrued contribution of smartphone sales, new product verticals and the increase of subscription-based services.

Sweden is a pioneering country within this type of marketing, which is why *Digital Influence Consulting* and the *Swedish Chamber of Commerce in France* have decided to create this event: focusing on **Swedish brands who wish to grow their digital business on the French market, helping them to attain a good understanding of the market, referring them to the relevant local partners and guiding them to the right digital marketing mix.**

We are looking forward to welcoming you in Stockholm and helping you to get the most out of the French digital market and its new consumption habits.
