

# SWEDISH-FRENCH START-UP HUB

CHAMBRE DE COMMERCE  
FRANCE SUÈDE  
Franska Handelskammaren

ESTIMEO

Paris, May 2018

***The Swedish Chamber of Commerce in France, the French Chamber of Commerce in Sweden and Estimeo, the automated start-up rating platform, enter a partnership to promote and strengthen the Swedish and French ecosystems and innovation.***

---

France and Sweden, two true start-up nations, offer great investment and growth opportunities in Europe. This is why CCSF, CCFS and Estimeo have entered a partnership and gathered around a specific concrete project, the “French-Swedish Start-up Hub” for creating and strengthening the ties between our two European ecosystems.

CCSF and CCFS provides access to a vast network of contacts, a strong know-how of the start-up ecosystems in France and Sweden, tailored domiciliation services in France, and qualified assistance in connection with Swedish-French investment and business development projects.

For the creation of a “start-up” ecosystem, Estimeo provides innovative tools for risk analysis and ratings to be the benchmark reference in the start-up evolution and scale-ups of tomorrow.

A fintech capital investment company, Estimeo offers start-ups a method for online and automated evaluations based on financial and beyond mere financial criteria giving a normalized rating between 0 and 100 and a trust index.

## The platform's goals are to :

- Propose an evaluation allowing entrepreneurs to transform their start-ups to scale-ups and to find investors
- Help larger companies identify start-ups to develop their innovation projects
- Assist investors in the process of identification and qualification of start-ups

## Estimeo's platform rating (Equity Scoring) is aimed:

### At start-ups to

-  Find investors
-  Gain visibility
-  Ask the right questions
-  Benchmark themselves compared peers

### At larger companies, funds, banks, and incubators to:

-  Benefit from tailor-made sourcing
-  Qualify and follow their deal-flow
-  Get key information in a click
-  Rationalise start-up risks

## Special CCSF / CCFS offer
