Ericsson is awarded the Prix d'Excellence 2021

The Swedish Chamber of Commerce in France awards Swedish companies which have especially distinguished themselves for their performances on the French market with the company award “Prix d’Excellence”.

Ericsson wins the Prix d’Excellence due to its sizeable investment in a new important R&D centre and commitment to France with the creation of 300 new employments. This investment is an important part of Ericsson’s innovative technological development for the digitalisation of the economies and its key role in the green transition affecting multiple areas where the 5G platform will be of paramount importance in France and world-wide.

About Ericsson: Ericsson enables communications service providers to capture the full value of connectivity. The company’s portfolio spans the business areas Networks, Digital Services, Managed Services and Emerging Business. It is designed to help customers go digital, increase efficiency and find new revenue streams. Ericsson’s innovation investments have delivered the benefits of mobility and mobile broadband to billions of people globally.

Ericsson believes in a world where limitless connectivity improves lives, redefines business and pioneers a sustainable future. Sustainability is integrated into Ericsson's strategy becoming an ever more fundamental part of creating business and societal value. Ericsson is committed to creating positive impacts in society and reducing risks to the company, its customers and society through Ericsson's technology, its solutions and the expertise of its people.

While the ICT sector has the potential to positively enable the achievement of all 17 Sustainable Development Goals (SDGs), Ericsson is contributing primarily through SDG 9 – Industry, innovation and infrastructure, and SDG 17 – Partnerships for the goals.
