

MESSAGE FROM THE PRESIDENT

Dear members, partners and friends in France, in Sweden and elsewhere in the world,

The Swedish Chamber of Commerce in France with its entire Team wishes you prosperity, health and happiness throughout this New Year 2022, and great success for the French Presidency of the Council of the European Union.

After an intense year 2021, ending with the French-Swedish Business Day on December 6 in the presence of H.R.H. Crown Princess Victoria of Sweden, we indeed look forward to continue working closely with you to further strengthen French-Swedish relations during 2022!

To start, welcome to meet and listen to Pierre-Alexandre Miquel, Chef de projet Présidence française 2022, Direction Générale des Entreprises, and former Economic Counselor and Head of the Regional Economic Department for the Nordic countries based at the French Embassy in Stockholm, Sweden. He will address the issue of a stronger industry for a more autonomous Europe at the special conference we are organizing on February 22 at 18:30.
